

Motorized *Elegance*

Sunteca has been the number one vertical blinds window treatment expert for over 40 years—worldwide.

With the DA1000 and DA2000 motor systems, Sunteca is the right choice for everything from one window residential applications to the most demanding commercial applications. The DA2000 couples with the widest array of installation configurations available, making it the ultimate in motorized track systems.

Sunteca's superior quality and performance is as essential as the design. A complete line of curved, arched, sloped, top & bottom tracks as well as standard are available, all using only premium grade materials, ensuring long-term stability and unequalled trouble-free operation.

- *On-site training for fabricators*
- *All orders shipped within 24 hours*
- *Heavy duty, UV stabilized, self-aligning carrier*
- *Replaceable carrier hook for onsite repair without removal of the track or disassembly*
